

A modern interior scene featuring a dark, minimalist table and a low cabinet against a textured wall. The table has a thick, dark top and a thin, metallic frame. The cabinet is dark and low-profile, with a stack of books on top. The wall is made of large, textured panels. The floor is light and reflective. The lighting is soft and even.

BARI

Designer: Malgorzata Graczyk

*Each office has its own unique atmosphere. I hope that "BARI" will become a source of lots of inspiration while creating an individual character of work.*

BARI

*Simple forms of Impuls obviate decorations and deny even handles.  
The leading principle is: the less the better.  
Moreover, minimalist interior is also a matter of spaciousness.* 4 / 5

*One of the system peculiarities is high-tech style. "BARI" resembles modern executive office with typically urban interior. Glass emphasizes the sophisticated coolness of the interior. Along with glass in black and white colours, metal with chrome elements and artificial structures are used.*

"BARI" is a mix of simplicity and minimalism brought by the newest technological advancements.  
The main purpose of the system lies in organic arrangement of interior and creation of open space.  
Room details are responsible for various functions, just as diverse colours and materials for the overall perception of the work space.

*In Impuls, the latest technological solutions distinguish the warmth of the essential oak and chestnut colours. Wood finish of the cabinet fronts adds coziness to the whole system. By using contrasting colours, the character of "BARI" becomes dynamic and unique.*

*Simplicity, essentiality and style are the three characteristics, which explain the origin of "BARI"  
 Thus details, finish and color cast are of high importance.  
 The collection is trendy and functional, that's why it is often popular among young people full of vitality and power.  
 Light furniture of simple forms dominates.* 12 / 13

*Furniture is produced of light wood and glass, which are connected by the aluminium components. Stylish simplistic design and moderate number of elements add space and vividness to the room. Materials are an important element of modern interior, which are responsible for the creation of atmosphere and decoration of interior. Contemporary style originates from the free combination of glass, glossy HPL and lacquered desk frame.* 16 / 17

Choosing the right colours is of highest priority. The hues of solid white and black suit the minimalist nature of "BARI" and harmonize with glass doors or high gloss HPL.
